

ANZAC DAY - MAKE YOUR OWN POPPY CRAFT

To show your support and appreciation, you can make your own poppy to wear or put in your window for ANZAC weekend (and a perfect accessory for your bear if you have one). You can even make a bunch of them, and create a cute wreath.

The poppies are designed using hearts so we can spread more love in our community for ANZAC Day and every day! I've added a white heart to write the name of a veteran (or veterans) you are remembering. You can also write a word or intention that inspires you!

They are super simple. You can use paper, felt, fabric or ribbon. You'll need scissors, glue and the material.

To make your own large poppy, cut out the following:

4 big hearts (red)

1 small heart (white)

1 circle (you can use black paper or colour it in yourself!)

To make a small poppy, cut out the following:

5 small hearts (4 red and 1 white)

1 circle (black)

Extra circle in case you want to make an extra flower!

Once you cut out the red hearts, arrange and glue them like a 4-sided flower. Add the black circle on top to look like a poppy. Write the name of someone you are celebrating, or your inspirational word on the white heart and glue to the back of the poppy.

Enjoy and have a lovely ANZAC Day - Stay safe & well, Kristin
